What to Do With Lead-Based Paint

Tom Reinhard of Allsafe Environmental, Inc.

Tuesday, December 14, 2010

Have you been wondering if that recently-implemented EPA "Lead Renovation, Repair and Painting (RRP)" Rule applies to your alterations project? How do I achieve a "lead-safe certified" facility? What work practices are necessary? What other lead-based paint (LBP) regulations might apply? How do you specify for compliance with LBP regulations? These and other questions will be answered in this overview of current lead-based paint regulations.

This program will be registered for AIA-CES learning units and certificates of continuing education can be provided for other disciplines. *(more information on page 3)*

*Spouses, guests and visitors
are welcome and encouraged to attend.*

RADISSON HOTEL

1150 Camp Hill Bypass, Camp Hill, PA

Board Meeting - 5:00 p.m.

All members are welcome to attend the Board Meeting

Attitude Adjustment - 6:00 p.m.

Dinner - 6:30 p.m.

Program - 7:15 p.m.

Dinner Cost

Free for Central Pennsylvania Chapter CSI Members;
Students \$10, All Others \$25

*Dinner reservations by
noon, Friday, December 10, 2010
See FROM THE CHEF'S TABLE

The Construction Specifications Institute is a nation-wide nonprofit technical organization dedicated to the advancement of construction technology through communications, education, research and service. Founded in 1948, CSI provides a forum for architects, engineers, specification writers, contractors, suppliers and others in the industry.

Anyone who is concerned with construction specifications in any manner is invited to apply for membership.

President's Message

Holiday greetings to everyone. I hope the Thanksgiving holiday was as rewarding for you as it was for me. Even in these difficult times we all have many gifts for which we should be thankful.

For those of you who could not attend last month's meeting you missed an excellent tour of the new Pinnacle Health Sciences Pavilion. Many thanks to Chris Atwood, Murray Associates and The Quandel Group for an interesting and informative program.

Now, as we move from a time of giving thanks to a time of celebrating why we give thanks, our focus should be on sharing those gifts with others. On that note, in addition to our program, "What to Do with Lead Based Paint" we will be livening up our December meeting with an audience participation of sharing. Give consideration to special people, gifts or events which have impacted your life in a positive manner. We may pick you to enlighten the group. In addition to this I hope to be able to announce a worthy recipient of a monetary donation from the chapter. If anyone has a suggestion for a potential recipient please forward it to me or any board member by December 10th. It can be an individual or organization based on need or community action and should be accompanied by a brief summary of why they should be considered.

Hope to see everyone on the 14th at the Radisson to enjoy food, fun and one another; and to all,

Merry Christmas and Happy New Year!

*Jake Burkholder, CSI, CCPR
President*

*Jeff Turicik
Editor*

From the Editor's Desk

The Central PA Chapter dues include all meals for the chapter program dinner meetings for the year.

Come out to our meeting to network, socialize, and learn about timely subjects in the Construction Field.

RESERVATIONS

to Logan Myers by calling 570.850.6330 or e-mail at loganmyers@hotmail.com or use our on-line registration form at www.cpc-csi.org

YOU MUST MAKE RESERVATIONS OR CANCEL STANDING RESERVATIONS by NOON, FRIDAY, DEC. 10, 2010.

ALL NO-SHOWS WILL BE BILLED.

Entrée selection should be made when making a reservation.

First entrée listed is the default selection if no choice is made.

To schedule a Table Top Display, call Jan Myers at 717.238.4910 or use the form in Choice or online.

Attendees should make an entrée selection when reservations are placed.

(Please note that the first entrée listed will be the default selection if no choice is made.)

December 14 Program & Speaker Bio

What to Do With Lead-Based Paint

Have you been wondering if that recently-implemented EPA "Lead Renovation, Repair and Painting (RRP)" Rule applies to your alterations project? How do I achieve a "lead-safe certified" facility? What work practices are necessary? What other lead-based paint (LBP) regulations might apply? How do you specify for compliance with LBP regulations? This program will provide an overview of current lead-based paint regulations. Attendees will learn the answers to these questions and gain further understanding in the following:

1. The general hazards of older paints and coatings, and the health effects related to exposure and overexposure.

2. Become familiar with the EPA Renovation, Repair, and Painting Rule (RRP) and its history.

3. Developments and proposed changes in the RRP rule.

4. The potential impact of other related EPA lead regulatory developments.

This program will be registered for 1.0 AIA-CES HSW learning unit, and certificates of continuing education can be provided for other disciplines.

Speaker Bio

Tom Reinhard of Allsafe Environmental, Inc.

A little background on our speaker:

Thomas K. Reinhard and his wife, Joanna, formed Allsafe Environmental, Inc in 1994, to provide regularly scheduled quality training programs for corporate and public clients. They currently perform training and consulting for individuals from Fortune 100 and 500 companies, public utilities, federal, state & local government entities, schools and universities, environmental consulting and environmental abatement/remediation companies, laboratories, and other organizations.

Mr. Reinhard is one of the very few trainers accredited by the Commonwealth of Pennsylvania to instruct all the EPA asbestos and all the EPA lead certification & recertification courses, and the only trainer to have a custom course approved in EPA Region III for the new Renovation, Repair, and Painting Certified Renovator courses. He is the author of some 35 environmental safety courses and has authored articles in professional publications (*Annals of Industrial Hygiene*). Allsafe's course subjects span the range of Indoor Air and Environmental Quality, Mold investigation and remediation, Asbestos, Lead (and cadmium and chromates), Hazardous materials transportation, Hazardous Materials Emergency Response and Cleanup, as well as a range

of other related environmental, health, and safety subjects.

He is a full member of the American Industrial Hygiene Association (and a listed consultant for many years), the SSPC/Society of Protective Coatings, the Air and Waste Management Association, the Indoor Air Quality Association, and the Penna. Assoc. of Hazardous Materials Technicians. He also sits on the PA Dept. of Health Lead Grantee advisory committee.

Mr. Reinhard has a B.A. from Susquehanna University (1972) with academic honors in communications, social sciences and history. He has held many positions in the past 38 years, including but not limited to congressional relations officer, author of transportation, safety, and environmental laws, lobbyist for an export management firm where he worked on product development, marketing, economic development, and health and environmental projects.

Curmudgeon's Corner

One more time

by Sheldon Wolfe, RA, FCSI, CCS, CCCA, CSC

Last year, our annual election ballot included a proposed by-laws amendment that would have combined the professional, industry, and associate membership classifications into a single group. Although the amendment received over sixty percent of the votes, it fell short of the required two-thirds majority required to pass. The Los Angeles chapter brought the issue before the members at the annual meeting in Philadelphia, where eighty percent of the members voted in favor of again putting membership reclassification before the members, as an amendment proposal on the 2011 ballot.

Readers of this column may recall that last year I questioned the need for changing to a single class of voting members. I still feel the same as I did then about some of the issues, but in the last couple of months I learned a few things that led me to the conclusion that the time for a single class of voting members is long overdue.

When the suggestion to change to a single group of voting members was made a year ago, one of the most common complaints was that some members or potential members were or might be offended by the use of the word "professional", believing it could be seen as a reference to the manner in which members acted, or as a suggestion that some members are better than others.

This was somewhat surprising to me, as we work in an industry that relies on the correct use and interpretation of definitions. If you were to ask random people to name a few professions, it's likely they would say doctor, dentist, attorney, teacher, and perhaps architect or engineer. These are occupations that commonly are referred to as professions; they have in common a requirement for several years of formal education, and, usually, government control of the practice. It is highly *unlikely* that the same question would elicit contractor, mason, or salesperson as a response.

One of the examples given in support of that argument was that teachers or professors felt slighted because, as just noted, they generally are considered professionals. But, just as anyone can have a profession in the general sense, or behave in a professional manner, so, too, can anyone profess to know a great deal about any given subject - and those same professors would probably object to a master mason claiming to be a professor. Given the derivation of the term *professional*, and the clear way in which it is used, I don't accept the political correctness argument that we should change the name simply to avoid the possibility that someone might be offended.

A bit of background

So what changed my mind? What led me to decide that it's worth changing to a single class of voting members?

At first glance, it might appear that all voting members (associate, industry, and professional) have equal status; all are allowed to vote, and all are allowed to hold any office.

There are, however, a few bylaws requirements that remain from our distant past, when CSI was, in essence, an organization of design professionals.

Since I became a member in 1987, I have accepted as fact that all voting members *are* equal, and, as we often do, I imagined that was the way it's been, if not forever, at least for a long time. And why not? As long as I can remember, CSI has claimed everyone in the construction industry - "Architects, specifiers, contractors, engineers, building owners, facility managers, attorneys, academics, product suppliers, construction software vendors..." - as potential members. Unlike AIA, AGC, and many other organizations, full rights and privileges are not limited to one type of member. Well, almost.

In the beginning, there were only specifiers. In 1948, CSI was formed as an organization for architects and engineers; in other words, for members of the design professions. The by-laws allowed others to join, but those who were not professional members could not vote or hold office. Over the years, as membership grew, the number of members who were not architects or engineers increased. Along the way, the names of member groups changed, so for convenience I'll use the ones we have today, - associate, industry, and professional - and I'll include associate members with industry members. A few of the dates that follow are best guesses based on available information, but most are correct, and at worst a couple are within a year or two.

As the number of industry members grew, so did their influence, and so did their desire for full participation in CSI. Old bylaws not only limited the rights of industry members, but treated them as second-class citizens. If a professional member changed jobs, and no longer qualified for professional membership, the change to industry member was immediate. In contrast, an industry member who changed jobs and became eligible for professional membership had to wait for approval from the Institute Board.

The DC Metropolitan Chapter's history speaks about their 1959 Winter Holiday Program, which was called "Associates Night". The remarkable thing was that nine industry members were allowed ten minutes each to present their products to the professional members - something that was not permitted at chapter meetings. (But I'll bet they were allowed to pay the bar tab!)

It wasn't until 1963 that industry members were represented on the Institute Board, and then only as directors. The first time an industry member was allowed to serve as an Institute officer was 1964, and then only as treasurer. Industry members were allowed to vote, but only for industry directors.

At some time in the 1960s, industry members were allowed to serve on chapter boards, but they could not serve as chapter president. In 1966, industry members became eligible for Fellowship. In the first year they were eligible, five of the eleven Fellows were industry members. Not a bad showing for second-class citizens!

*Paul Brunski,
Substitute
Recording Secretary*

Chapter Certification Study Course

January begins the Chapter Certification Study Course at the Midtown HACC Campus. This will be my tenth year heading up the program. I hope the 127 students that have successfully passed the class in that time period have professionally benefited from what the program. A special thanks to Armstrong World Industries for sending the largest contingent of students, and to the other instructors who have donated their time and expertise to make the program a success.

If you are interested in the program, follow the instructions below to get enrolled. It is highly recommended for anyone taking the CDT exam. January 28th is the early deadline to register for the CDT, CCS, CCPR, and CCCA exams, so don't delay. February 26 is the final deadline.

The certification exams are scheduled for March 28 - April 9, 2011, and are available at Prometric Testing locations throughout central Pennsylvania.

Study Course: Dates: Jan. 24 thru April 4, 2011 (Monday evenings for 10 weeks. March 7 is spring break)
Time: 5:30 to 8:30 P.M.
Location: HACC Midtown Campus, 4th and Reily Streets, Harrisburg, PA
Cost: \$140 (subject to change – check HACC website)
Registration: Refer to www.hacc.edu for registration requirements.
Textbook: CSI Project Resource Manual

The study course is designed to assist candidates preparing for the examination(s) by offering a complete overview of CSI's Project Resource Manual and the General Conditions publications by AIA (A201 or EJCDC 1910-8). The course will be offered as both a 1-credit course in HACC's Building Construction Technology curriculum and a non-credit course in HACC's continuing education program. Registration is available now.

To register: Go to www.HACC.edu and click Admissions.

Non-credit course enrollment:
Credit course enrollment:

Course no. CRN 51939
Course No. CRN 33606

It's also a great way to brush up on your skills regarding contract document relationships, change orders procedures and formats, or the elusive contents of the AIA A201.

If you have any questions about the class or the certification program feel free to contact me at 717-263-8464 or pbrunski@noelkerhull.com.

Invest in yourself! Get certified!

*Paul Brunski CCS, CSI
Chapter Certification Chairman*

(Continued from page 4)

In 1975, nearly thirty years after CSI was formed, Industry members were given the right to vote, and the office of Industry Vice President was added to the Institute Board. Industry members were at last allowed to serve as chapter presidents - but only after review and acceptance by two-thirds of the chapter's board of directors. You just can't trust a salesman!

In 1986, industry members were made eligible to serve as Institute president, and in 1989, CSI elected its first industry member president.

Last year wasn't the first time that an attempt was made to grant industry members full rights; the records I have indicate that changing to a single member category - thereby giving industry members complete equality with professional members - was considered in 1974 and 2002, and other information suggested that it also may have been considered in other years.

We're not done yet!

What we have, then, is a long, slow, and painful journey, gradually removing obstacles to industry participation at various levels of the organization. Even though industry members now are allowed full participation, our bylaws continue to imply that some voting members are better than others.

- To charter a chapter, fifteen members are required, twelve of whom must be professional members, and to maintain a chapter, it must have at least eight professional members. I suspect a chapter that had no professional members might not be as effective as one with similar numbers of industry and professional members, but if they can make it work, why would we stop them?
- To have a quorum at the annual meeting, a majority of the members present must be professional members. If we have 300 industry members at an annual meeting, and only 299 professional members, does that really

(Continued on page 6)

CSI Awards

Hello to all Region and Chapter Award chairs & Chapter Presidents,

As we roll into the holiday season, it's not too early to think of Award packages along with your holiday gift-giving. What better way to show your appreciation for a fellow CSI member, mentor, or firm than a CSI recognition? The awards season officially will open in January with all submissions due Friday, May 6, 2011. These dates are set to align with the Construct Show in September 2011. That date may seem like a long time off, but when the new year rolls around it will be time to kick into high gear to pull together your nominations.

As the Institute's liaison to the Middle Atlantic Region I wanted to make you aware of the dates as well as some of the changes you can expect from the new Honors & Awards guide. Some of the biggest changes will be seen in the Outstanding Chapter Commendation (OCC). This year there will be a new, simpler format requiring less backup and paperwork. We hope this will encourage more chapters to submit for this award. Some awards have been combined, like the Student Liaison Award and the Andrew J. Drozda Academic Affairs Commendation. The Publication Awards have been merged into a single Communications Award. Another improvement to the Awards program this year is the ability to upload a submittal online saving a chapter the cost of printing and mailing a nomination package. In addition, endorsers will also be able to upload their endorsement letters.

The new FY11 Honors & Award Guide will be available in January so be sure to go www.csinet.org and click on the Honors & Awards link on the right side of the page. The Committee and staff are currently hard at work simplifying this guide and making it more user friendly. Please be sure to take the time to

download the latest copy in January as many forms and requirements have changed. There will also be a webinar in mid-January to go over all the changes and give chapter award chairs time to ask any questions they may have about the guide.

The Awards Committee is hoping that with the simplification of the OCC and the guide itself, that there will be a large increase in the number of submittals from all regions including the Middle Atlantic Region. I know there are many outstanding chapters in the MA Region deserving of the OCC, so I hope to see you all submit this year. I'm also certain that every chapter has at least one member or firm in their community that should be recognized for their accomplishments. Possibility someone in your chapter or community is an excellent specification writer and is a good candidate for the Ben John Small Award. Or is there a firm or group in your area doing an impressive job of promoting sustainability or designing/constructing sustainable projects? Then there is an excellent candidate for the Environmental Stewardship Award. With all the great people in the MA Region, there should be an abundance of submittals.

As the awards season progresses and work begins on your nomination packages, do not hesitate to contact me if your chapter has any questions. While the Awards Committee members cannot assist with the preparation of the award packages, we can advise on procedural questions related to awards submissions and answer any questions you may have relative to the Institute's Honors & Awards Guide.

Until then, best wishes for a prosperous and happy new year in 2011!

Sincerely,
Anne Marie Roeper CCPR
FY11 Institute Awards Committee

(Continued from page 5)

mean that we don't have enough qualified people to do business?

The bottom line is that industry members remain second-class members. The favoritism is subtle, and most members probably are not aware that it exists. While preferential treatment may have made sense sixty years ago, CSI has changed since then, and it no longer has a place in our or-

ganization. It must be especially galling to the many industry members we continually call on to finance all of our activities.

We have been talking about member equality for more than forty years; it's time to make it reality. Separate but *not quite* equal just doesn't work. When you get your ballot in February, vote in favor of equality.

Minutes of Board of Directors Meeting

Date: November 9, 2010

Time: 4:00 pm

Location: Jobsite Trailer, Pinnacle Health Medical Sciences Pavilion, Harrisburg, PA

The Board of Directors of the Central Pennsylvania Chapter of the Construction Specifications Institute met in the Quandel Construction jobsite trailer at the Pinnacle Health Medical Sciences Pavilion in Harrisburg, PA on November 9, 2010. President Burkholder called the meeting to order at 4:00 p.m. Board members and committee chairs present were: Atwood, Brightbill, Brunski, Beauduy, Burkholder, Cannon, Cluck, Frigm, Groff, Morgan, Myers, Scruggs, Saylor, Snyder, Turicik, and Therkildsen.

Opening Comments:

1. President Burkholder welcomed the group of officers, board members, and attendees. We had a quorum, and the meeting was brought to order. We need to continue discussions for use of the funds in the Chapter's "war chest". Ideas include speaker fees, scholarship fund, and contributions to the CSI foundation for future use.

Approval of Minutes:

2. Minutes from the October 12, 2010, meeting were approved, as moved and seconded by Atwood and Groff.

Treasurer's Report:

3. Treasurer Bill Brightbill presented the Treasurer's report, and the report was filed for audit. The Board moved \$1,000.00 from the annual convention budget to the region conference budget for region conference expenses. The tax return has been filed, and the audit is available for review. Treasurer Brightbill noted that there will be no CSI National Convention during this fiscal year.

Officer's Reports:

4. **President-Elect:** President Elect The exhibitor's show will be added to the events calendar.

The event calendar should continue in Choice for general membership, while a more detailed board calendar could be linked to the CSI website.

5. **Vice President:** No report.

6. **Secretary:** No report.

7. **Past President/Advisor:** No Report.

Editor's Report:

8. Jeff reminds us that he needs guest articles and meeting minutes for the Choice newsletter by Friday, November 19th. Jake reminded us that the monthly newsletters must be sent to Region and Institute officers.

Committee Reports:

9. **Academic Affairs:** No report.

10. **Advertising:** Three checks from advertisers have been received so far for a total amount of \$450.00.

11. **Archives:** No report.

12. **Awards:** Larry Saylor received an award for the exhibit shows, and John Morgan received an award for the golf outings. The Central PA CSI Chapter received an Outstanding Chapter Commendation on May 12. We all must keep up the good work to maintain a #1 Chapter status.

13. **Budget/Finance:** No report.

14. **Bylaws:** Institute level changes are being made which will need to be reflected in the bylaws. Possible changes include revisions of membership titles.

15. **Certification:** Four people have signed up for upcoming Monday night CDT classes.

16. **Education:** All continuing education units will continue to be registered with the American Institute of Architects (AIA).

17. **Electronics:** No report. This committee could possibly be eliminated.

18. **Exhibit/Show:** No report.

19. **Hospitality:** No report.

20. **Long Range Planning:** No report.

21. **Membership:** Responsibilities for this committee in the by-laws will be reviewed and updated.

22. **Program:** A hard hat building project tour is schedule after today's meeting at the new Pinnacle Medical Science Pavilion at the old Osteopathic Hospital site. The Architect is Murray Associates. The December program will be determined in the near future.

23. **Publicity:** No report.

24. **Roster:** The roster update is 60% complete. The update completion is anticipated for December.

25. **Technical:** John Morgan is the new Region Chair for Technical.

Directors:

26. Denny Fitzkee was honored with the Harry R. Rutledge Distinguished Service Award at an AIA awards event yesterday. Denny is a CSI Emeritus; we need to reach out to him to attend future meetings.

Old Business:

27. Don Scruggs and Dave Shaw is working on a by-laws update.

28. Don has sent out the old list of responsibilities to each committee chair for review, editing, and updating. Charles Beauduy and Jake Burkholder are the only persons to respond to date.

New Business:

29. Jan Myers and Paul Brunski discussed the possibility of publishing and distributing a new CSI handbook with a current roster.

*Respectively submitted,
Mark B. Therkildsen, AIA, CSI

Calling All Reps!

Would you like to highlight your company or a special product? Do we have a deal for you. For a mere \$125-\$150 you can display your wares during the social time and have 10 minutes of everyone's attention during dessert at one of our CPC/CSI dinner meetings. What an awesome opportunity to hit several specifiers at once. If you are a member of this chapter, it will cost \$125. If you are not, it will cost \$150. For more details, see the CPC-CSI.org website. To schedule a table top, call Jan Myers at 717.238.4910. Thanks!

EXHIBITORS' SHOW

THE CENTRAL PENNSYLVANIA CHAPTER OF THE CONSTRUCTION SPECIFICATIONS INSTITUTE, INC.

Knowledge
for Creating
and Sustaining
The Built
Environment

MARCH 9, 2011

11:00 A.M. - 6:00 P.M.

CAMP HILL RADISSON

1150 Camp Hill Bypass, Camp Hill, PA

Don't miss this chance to exhibit at Central Pennsylvania's Premier Exhibit Show attended by architects, engineers, contractors, facility managers and building owners.

In addition to your exhibit, The Show will feature free sandwiches, wine tasting, coffee, soda and cheese. Door prizes will be drawn hourly.

Complete and return the Reservation Form below to reserve your space for this exciting event. Check must accompany reservation form. Exhibit spaces (6 feet deep by 10 feet wide) are \$500 and will be provided with one table and two chairs, if desired. Number of spaces is limited to 90, first-come, first-served.

The schedule:

Set-Up 6:00 A.M. until 11:00 A.M.
Show Time 11:00 A.M. – 6:00 P.M.
Down & Out 6:00 P.M. – 10:00 P.M.

Each exhibit space can be provided with a duplex receptacle with 120 volt power, if requested. (Please check the box on the Reservation Form.) NO POWER EXTENSION CORDS will be provided with the spaces. If required, please provide your own. Each exhibit space will be provided with a back drop and side drops.
