BOARD MEETING

Tuesday, March 13, 2012

5:00 P.M.

at the Radisson Hotel and Convention Center
There will be no regular meeting in March
due to the Exhibitors' Show on March 14th.

All members are welcome to attend the Board Meeting

Calling All Members:

This is the proposed slate of officers for the FY 2012-2013.
Nominees are as follows:

President – Jan Myers
President Elect – Eric Hard V Hardenbrook
Vice President – Robert Loftin
Secretary – Scott Steffen
Treasurer – William Brightbill
Recording Secretary – Jennifer Ponce De Leon
Two Year Directors – James Kingsborough, Larry Saylor,
Jake Burkholder

Within 10 calendar days of this issue any member who wishes to make additional nominations may do so by (1) obtaining consent of such nominee to serve if elected (2) securing seconding of such nominee (3) giving names of such nominees to the nominating committee chairman who will enter names of such additional nominees to the ballot. If you would like to submit anyone, please contact Jan Myers at jan@janmyersassociates.com.

**The Central Pennsylvania Chapter meets
the second Tuesday monthly
except NO meetings are held in July or August.**

President's Message

The Institute's national convention CONSTRUCT 2012 will be held at the Phoenix Convention Center in Phoenix, AZ from September 11 to September 14, 2012. Hanley Wood, the Institute's event organizer, is already advertising hotel rooms for this event. I attended last year's convention in Chicago, and took good advantage of the many educational (and party) opportunities. I had visited Chicago before and been on the architectural boat tour and saw the "wave" building which were very interesting once but in my humble opinion not worthy of a repeat visit. Next year's convention will be held in Nashville, TN; but your next opportunity to

attend one of these events is in Phoenix. Having lived and worked in Phoenix several years ago, I can tell you that there is a lot to do and see in the Phoenix area. Frank Lloyd Wright built Talesin West and several other edifices in the Phoenix area, which you can tour while at Construct 2012. Two hours north of the City is Sedona, the picturesque red rock country shown in travel magazines, which is not to be missed. Walt Disney used to send his budding artists there for inspiration! There are lots of ruins left behind by ancient peoples within a short drive of Phoenix, such as Montezuma's
(Continued on page 5)

From the Editor's Desk

Attention all CSI Members!

This is your chance to be published have your voice heard. If you have written an article, related to the construction industry, send it to me! We are all good readers and can appreciate a good article. When you come to the next meeting, people will acknowledge you and maybe even buy you a drink! Try it and find out.

Minutes of Board of Directors Meeting

Date: February 14, 2012

Time: 5:00 pm

Location: Radisson Hotel, Camp Hill, PA

The Board of Directors of the Central Pennsylvania Chapter of the Construction Specifications Institute met on February 14, 2012. President Groff called the meeting to order at 5:02 p.m. Board members and committee chairs present were: Atwood, Brunski, Beauduy, Burkholder, Cannon, Groff, Loftin, Lussier, J. Myers, L. Myres, Deck, Morgan, Scruggs, Cluck, and Saylor.

Opening Comments:

1. President Groff welcomed the group of officers, board members, and attendees. We did have a quorum, and the meeting was brought to order. Groff announced David Shaw is moving to Virginia in March. It was decided David's position as Vice President would not be filled until July for FY '13. Everyone wishes David good luck. He will be missed.

Approval of Minutes:

2. Minutes from the January 2012 board meeting were not reviewed. Final approval will be obtained at the March meeting.

Treasurer's Report:

3. No report. President Groff distributed the financials for review and file.

Officer's Reports:

4. **President Elect:** No report.
5. **Vice President:** No report.
6. **Secretary:** No report.
7. **Past President/Advisor:** No report.

Editor's Report:

8. No report.

Committee Reports:

9. **Academic Affairs:** Scholarship applications have been distributed to HACC and Penn State.
10. **Advertising:** no report.
11. **Archives:** John has the chapter's original charter and is keeping it in the chapter archives.
12. **Awards:** No report.
13. **Budget/Finance:** No report.

14. **ByLaws:** By-laws need to be updated to reflect the two year terms for officers. David's replacement has not been determined.
15. **Certification:** John Cannon made a motion and Bill Deck second the following: If a non-member CDT exam candidate passes the exam, the chapter will pay their dues for one year. Institute dues to be paid for by the member. The motion passed.
16. **Education:** Chair Loftin has secured AIA registration for tonight's program. Co-Chair Scruggs reported 12 people are signed up for the technical session, and he expects more in the coming weeks.
17. **Electronics/Communications:** Co-Chair Lussier was using Twitter to advertise tonight's program.
18. **Exhibit Show:** Stu Co-Chair Cluck reported they are looking for additional vendors to send invitations too.
19. **Hospitality:** 34 signed up for tonight's meeting.
20. **Long Range Planning:** No report.
21. **Membership:** No report.
22. **Program:** Tonight's program is by UDS Accessible Home Services. The April meeting will be a tour and dinner at the Dorma Doors and Hardware plant. A bus will leave from the Raddison at 4 pm.
23. **Publicity:** No report.
24. **Roster:** Roster will be emailed to all members.
25. **Technical:** Jake agreed to be co-chair for the remainder of the year.

Directors:

26. **No report**

Old Business:

- 6-1 Chapter Administrative Guidelines and Policies: President Groff emailed two policies (free meals for members attending dinner meetings policy and reimbursement for attendance at officially sanctioned CSI functions policy) to Chairman Scruggs to be attached to the Guidelines as appendices, and asked if anyone has any other copies of policies adopted by the Chapter to be included.
- 6-5 Orientation/Mentoring: Experienced members are encouraged to mentor new members and pass on their rich knowledge of the industry to new and younger members. Directors are aligned on the proposed organization chart with Chairs they should mentor.

(Continued on page 5)

Curmudgeon's Corner

What happened to the Master Builder?

It's time architects accepted reality: They no longer are master builders, and haven't been for a long time. It's nothing to get excited about (well, not *too* excited), and there is no reason to maintain the fiction that architects are what they were in the good old days. In fact, there is good reason to admit the truth and move on.

Building materials have evolved, fabrication and construction have evolved, and the tools of our profession have evolved, yet we continue to create and use construction documents the same way we have done for nearly two hundred years, simply because that's what we have done for nearly two hundred years. And, even though architects do less now than they did many years ago, we maintain the fiction that architects are master builders.

"Heretic!" "Blasphemer!" "How dare you!" "Vile person!"

OK, now that we have that out of the way, let's take a dispassionate look at what architects do, what they did in the past, and what people did before there were architects.

I have trouble answering the first question. Although architecture is a licensed profession in much of the world, and the use of the word "architect", or any of its derivative forms, by one who is not licensed, often is prohibited by law, it can be difficult to define what architects do. It may be easier to answer if we look at what architects don't do.

Good design should be more than an attractive building. As architects will tell you, good design is based on understanding the client's activities, the spaces those activities require, an understanding of spacial relationships and perception, and familiarity with a multitude of building materials and products. It is all of those things, but even that is not enough.

Good design must keep water and weather out, and control light, heat, and humidity; it must consider durability and upkeep of the products used, and the access needed to maintain building systems; it must include selection of the optimum structural, mechanical, and electrical systems; it cannot ignore permit fees, energy costs, utility costs, or taxes.

Good design is *total* design.

Unfortunately, architects gradually have given away, or had taken from them, just about everything not directly related to appearance. As we will see, there has been good reason for some of this, while other things have slipped away because they were seen as too difficult or uninteresting.

One of the big changes we have seen in the last decade has been a move away from the familiar design-bid-build delivery system, to design-build, different forms of construction management, and other delivery systems that de-emphasize the role of the architect. The result has been greater control by contractors, with correspondingly less need for what architects offer.

While some decry the growing importance of contractors, there is nothing inherently wrong with a process controlled by those who build the building. Put simply, if architects were doing what they claimed they could do, there would be no need to change.

Many owners, including public agencies, have embraced design-build. The attraction is obvious - "Why go through all the trouble of dealing with both an architect and a contractor, who will stand back and point fingers at each other when something goes wrong, when I can hire a single entity that is responsible for everything? If I can buy a multi-million dollar airplane, which is far more complex than a building, without the hassle of both design and construction contracts, why should I not do the same for my new building?"

In theory, the design and construction parts of a design-build firm have equal standing, but in practice, architects are especially vulnerable. You can't design structure without an engineer, you can't design site work without an engineer, you can't design mechanical or electrical systems without an engineer, and you can't build a building without a contractor - but it's hard to say why you need an architect.

Design-build firms often are led by contractors because they're the ones who know the most about construction. They know about costs and schedules, they know how to build, and they know how to hire and employ subcontractors. The only reason they employ design professionals is because states require their certification. Even without that requirement, any contractor interested in self-preservation would still employ engineers to make sure their buildings wouldn't fall down, but what's left that requires an architect?

It doesn't take a rocket scientist to make sure that doors have at least 32 inches clear opening and that there are enough fire extinguishers to go around. However, because certification is required, we still need an architect on the team. But what is the architect's role? It may now be relegated to drawing and specifying what the contractor wants to build. The architect may have little or no interaction with the owner, other than selecting a few finishes and creating

(Continued on page 5)

(Continued from page 2)

President's Message

Castle, Montezuma's Well, and the prehistoric Hohokam Indian ruin right in the City. Best of all, the "Mexican" food is truly authentic (and delicious)! Reservations, anyone?

Dave Shaw, who has been an active member of our Chapter for many years and who has served as the Chapter's Vice President and Chair of the Chapter By-laws Committee this year, is relocating to the Washington, DC area. Dave has therefore resigned his Chapter offices. Dave served in many other capacities over his years in this area, and his talents, red hair, and big smile will be missed. I would like to take this opportunity to thank Dave for his service on behalf of the Chapter, and wish him the best of luck "inside the beltway".

GOOD NEWS! The Chapter's dues remain the same as last year's . . . sort of. As you may recall, a vote placed on the ballot by Institute last year revised the CSI membership classifications to eliminate the Industry, Associate, and Intermediate classifications; add the Emerging Professional classification; and retain the Professional classification. By vote of the Central Pennsylvania Chapter Board of Directors, the Chapter dues for the Professional membership classification (into which is merged the old Industry classification) remains \$100 per year, for the Emerging Professional membership classification is \$75 (the same as for the old Associate, and Intermediate classifications), and for the Student membership classification remains \$50.

I hope to see you all at the 37th Annual Central Pennsylvania Chapter's Exhibitor's Show at the Radisson from 11:00 AM to 6:00 PM on March 14. We have been blessed to have a successful show for that many years! You may want to sign up for the seminar explaining the changes between the 2012 International Building Code and the previous edition, and enjoy the FREE FOOD. The April meeting will be a tour of the DORMA hardware factory in Reemstown, PA; with free bus transportation to the factory and free seminars to be provided by DORMA! Stay tuned to CHOICE for details.

*John Groff, PE, CSI, CCS
President*

(Continued from page 3)

Minutes

7-4 2013 Regional Conference in Gettysburg: The Committee is looking for volunteers to serve on numerous committees. The event will take place on May 2 through May 5, 2013. The Wyndam Hotel contract is signed. The Erie Chapter has agreed to help us.

8-1 Support for Charities: Last year we donated to two charities. We need to decide if we can afford to continue helping charities this year.

8-2 Social Event: We need fresh ideas..

9-1 Guidelines for Speakers and Program Presenters

New Business:

2-1 The board voted on the chapter dues for Fiscal Year 2013. A motion was made by Bill Deck to keep the dues at the current rate of \$100, and second by John Cannon. After no further discussion, it was approved by the board.

The next Board meeting is scheduled for 5:00 PM on March 13 at the Radisson Hotel and Convention Center, the day before the Exhibitors Show.

*Respectively submitted,
Paul Brunski, AIA, CCS, CSI
Substitute Recording Secretary*

(Continued from page 4)

What happened to the Master Builder?

impressive perspectives to sell the job. The real design work may be done by someone who knows nothing about architecture, engineering, or construction, other than relative costs.

Certification of construction documents typically consists of the architect signing a statement that says, "I hereby certify that this plan, specification, or report was prepared by me or under my direct supervision..." or something to that effect. Question: When the architect is not in charge of the design process, when the contractor drives the decisions, isn't the architect's certification of the drawings and specifications no more than "plan stamping"?

To be continued...

Chapter Certification Study Course

ATTENTION!! This year's course fee has been reduced by almost 70%. This is a one time opportunity!

January 23 begins the Chapter Certification Study Course at the office of **Gannett Fleming** in Camp Hill. (**Will not to be held at HACC this year.**)

If you are interested in the program, follow the instructions below to get enrolled. It is highly recommended for anyone taking the CDT exam.

February 2nd is the early deadline to register for the CDT, CCS, CCPR, and CCCA exams, so don't delay. March 2nd is the final deadline.

What is CDT? It stands for Construction Documents Technology. Some of the benefits to getting your CDT means:

- Adding "CDT" after your name, to your business card and to your resume
- Understanding how a project unfolds from conception to delivery
- Understanding the documentation involved
- Getting listed in the [Certificant's Directory](#)

The certification exams are scheduled for April 2 - 28, 2012, and are available at Prometric Testing locations throughout central Pennsylvania. Go to www.csinet.org and click on "Certification" in the upper right-hand corner.

Study Course:

- Dates: January 23 thru April 2, 2012
(Monday evenings for 10 weeks)
- Time: 5:30 to 8:30 PM
- Location: Office of Gannett Fleming,
209 Senate Ave., Champ Hill, PA
- Cost: Normally \$140 **NOW \$50.**
- Registration: Contact Paul Brunski at
pbrunski@noelkerhull.com or
call 717-263-8464
- Textbook: CSI's Project Delivery Practice Guide
(Text book is not included in course cost, but
can be purchased directly from CSI)

The study course is designed to assist candidates preparing for the examination by offering a complete overview of CSI's Project Delivery Practice Guide and the AIA General Conditions publications. It's also a great way to brush up on your skills regarding contract document relationships, change orders procedures and formats, or the elusive contents of the AIA A201.

If you have any questions about the class or the certification program feel free to contact me at 717-263-8464 or pbrunski@noelkerhull.com.

Invest in yourself! Get certified!

Paul Brunski CCS, CSI
Chapter Certification Chairman

CSI's 2012 Honors & Awards Call for Nominations

Jeff Snyder
Awards Committee
Chair

Welcome to the Construction Specifications Institute's 2012 Honors & Awards Program! CSI's Honors & Awards Program recognizes the talent, achievements, and notable contributions to the construction industry that support the mission of CSI. Participating in the Honors & Awards Program is a great way to let members and others in your community know they are appreciated and valued. So if your chapter hasn't participated in the Honors & Award Program in the past couple of years, this is the year to submit

forms and submittal requirements. Be sure to download the 2012 guide that is posted at www.csinet.org/awards. As always, it will be important to use the current forms when preparing any submissions.

3. Fellowship Mentoring: If your chapter is preparing a Fellowship nomination package, then consider consulting with a fellowship mentor. A list of mentors can be found at www.csinet.org/fellowship.

In the meantime, if you have any questions, please email awards@csinet.org.

2012 Honors & Awards Submission Deadline: May 4, 2012

www.csinet.org/honorsandawards

Jeff Snyder
Awards Committee Chair

a nomination package!

With the tremendous success in uploading electronic submittals and endorsements last year, this process will continue again in FY12. If you didn't upload electronically last year, consider trying it this year. Not only will it save the cost of printing and mailing, you will also get immediate notification that your submittal was received so there is no guessing whether the package arrived on time.

The May 4th submission deadline sounds far off, but now is the time to start organizing and planning for the 2012 nominations. Begin by surveying chapter members and others in your community or region for those people, firms, and organizations that have made a difference in the construction industry and the mission of CSI. Then download the 2012 Honors & Awards Guide to determine the appropriate honor or awards category. The guide has a helpful matrix that makes the nomination process clear and straightforward.

To keep you informed about all the honors and awards, an email will be sent each week from now until the end of February to highlight the different awards and any applicable changes. Each chapter is strongly encouraged to develop a list of qualified candidates to submit for the numerous Institute Honors and Awards. Non-members are also eligible for several awards including (but not limited to) the Construction Technology Award, the Excellence in Construction Information (EICI) Award, the Environmental Stewardship, the Michelangelo Award, and Honorary Membership. Remember, the only way to guarantee someone doesn't win an award is to not submit a nomination package for them.

Some key items to note for this year's Honors & Awards Program:

1. Nomination Deadline: Friday, May 4, 2012 at 5pm ET
2. Newly Revised Honors & Awards Guide: The FY12 Honors & Awards Guide has been revised with some new

Don Scruggs

Calling All Reps!

Would you like to highlight your company or a special product? Do we have a deal for you. For a mere \$125-\$150 you can display your wares during the social time and have 10 minutes of everyone's attention during dessert at one of our CPC/CSI dinner meetings. What an awesome opportunity to hit several specifiers at once. If you are a member of this chapter, it will cost \$125. If you are not, it will cost \$150. For more details, see the CPC-CSI.org website. To schedule a table top, contact Bill Deck at wdeck@rlps.com. Thanks!
